

Walks from Baslow

Baslow is a walker's paradise, due to the huge variation of walks that can be taken by locals and visitors.

These walks have been put together by the parish council and are distributed in each compass direction from Baslow. To acquaint yourself with the village there are two other walks:

- A history walk, of points of historical interest around the village. This is on this website (<http://baslowvillage.com>) for download, or brochures can be collected from the SPAR shop or the pottery.
- A downloaded treasure hunt for families around the village. It takes in points of interest while challenging young (and old) minds to solve a treasure hunt. It can be found at <https://www.treasuretrails.co.uk/things-to-do/derbyshire/baslow>
This is a commercial enterprise but has been tested by council members.

The following 6 walks, marked on the adjacent map, predominantly have a short version 3-5 miles or an extended version (dotted line) of 6-8 miles. The actual mileages are stated on each walk.

Most of the walks are on uneven terrain so walking boots, or stout shoes are recommended. As Baslow is in a valley all the walks climb upwards (approximate elevation shown on each walk) so we suggest allowing an hour for every 2-3 miles. Please inform someone of where you plan to walk as mist can descend at any time, which can be disorientating. Dogs can be taken on any walk but may need to be on leads at times, and should always be under control.

All walks start and return to the main village car park with toilet facilities, 2 cafes a restaurant and 2 pubs within staggering distance. There are also 2 bistro's at the other end of the village by the church.

More information on the points of interest marked in italics in the walks can be found after the walks on the Baslow website.

There are many other walks that link into these walks- our choices aim to provide varied round walks, all starting from Baslow. Below is a map of the village with the walks marked for use joining the walks from other places in the village.

We take no responsibility for the accuracy of the published information in the walks, but they are all walks done repeatedly over the years by local residents. Taking an ordinance survey map is recommended in case you get lost.
